

We provide correction to the acknowledgement part of our paper “AB3D: Action-Based 3D Descriptor for Shape Analysis”, as an erratum to the published version of the paper. The official erratum will soon be published by The Visual Computer Journal.

Corrected acknowledgement:

The authors would like to thank the anonymous reviewers for their helpful comments. We also thank Liangliang Nan for providing his source code of point cloud reconstruction. The original idea of this paper stemmed from research discussions between the first author and YanzhenWang, who first worked on the problem under the supervision of Dr. Hao (Richard) Zhang at Simon Fraser University.
